

# Arncliffe Centre Refurbishment

## What is the project?

Halewood Town Council intends to undertake a major refurbishment of its main building, the Arncliffe Centre.

The building is showing it's age and we need to make the building more energy efficient, improve its ability to host larger-scale functions and offer a wider range of provision to serve the growing population of our township.

To progress, the project needs the consent and support of Halewood residents.

The budget for the whole project – including a sizeable contingency element which should reduce over time – has been set at up to £1.4 million. You can read more about the project and some frequently asked questions here:

## How can you get involved?

It is important that local people can share their views on the future of Halewood, and in particular the Arncliffe. We held three pop-up events in July and early Aug

You can share your views in person at the Arncliffe 11:00 - 16:00, Thursday 8 September.

Complete the survey by scanning the QR code
